

Assist. Prof. Dr.

Assist. Prof. Dr. Mahmut Özbey was born in Mersin in 1985 and completed his primary and secondary education there. He has been a faculty member at Sivas Cumhuriyet University's Faculty of Medicine, Department of Thoracic Surgery, since 2020. He has been the head of the Department of Thoracic Surgery since 2024. He graduated from the Dicle University Faculty of Medicine in 2012 and started his medical career. In 2018, after completing his thesis on the correlation between lactate and pleural effusions, he received his specialization in thoracic surgery from Harran University's Faculty of Medicine, Department of Thoracic Surgery.

Assist. Prof. Dr. Mahmut ÖZBEY is interested in the areas of thoracic surgery, including the surgical treatment of lung cancer, chest wall deformities (pectus excavatum and pectus carinatum), and primary focal hyperhidrosis (hand and armpit sweating). He speaks English, is married, and has two children.
